PORT OF LONG BEACH

PORT OF LONG BEACH

An aerial photograph of the Port of Long Beach, California. The port is a large, multi-fingered pier extending into the Pacific Ocean. It is filled with numerous shipping containers stacked in neat rows, and several large cargo ships are docked at the piers. The surrounding area is densely populated with residential and commercial buildings. In the background, the city of Long Beach and the surrounding hills are visible under a clear blue sky.

More than \$200 Billion in Trade Annually
2.6 Million Jobs Nationally
575,000 Jobs in Southern California
